

Cell Phone Scaventure

Looking for the latest, greatest scavenger hunt? We've got it! The Cell Phone Scaventure is a high-tech twist on conventional paper-based scavenger hunts that uses cell phones to introduce totally new levels of interactive game play! Instead of receiving clues on a sheet of paper, teams will register (through their cell phones) with our server at the start of the game.

During the game, all clues and challenges will be sent back and forth (via text message) from our short text code 8398-63 (TextMe). Cell Phone Scaventure hunts are high-tech, fast paced and fully interactive. Each team experiences a different game path with different challenges and different opportunities to score (or lose) points.

Team's also have access to a whole host of game-play features, such as texting in "HINT" to get help with a particularly tough clue. But be careful, each hint costs your team points! Teams can also text in "SCORE" to see how they're faring against the competition! Cell Phone Scaventure hunts require strategic thinking and clever problem solving that will challenge your teams to think fast and work together.

Signing in for a Cell Phone Scaventure hunt is as easy as texting from any cell phone. During play, teams have 90-150 minutes to complete their Cell Phone Scaventure. Along the way they're challenged to take photographs and send in their pictures, interact with live characters, collect objects, or simply answer challenge questions which are designed to be solvable

only when the players are physically at the correct location.

The result is a lot of fun, great "team out of the office", fun! This just might be the most fun you'll have with your co-workers! And, just like you and your company, you'll be on the cutting edge, playing the latest, greatest team building scavenger hunt around. What are you waiting for?

Outcomes

- Creative challenge
- Build communication skills
- Fun, fast-paced teamwork

Features

- A high-tech or text hunt that is GREEN as no trees are harmed to make this hunt!
- **Interactive Features**
 - **SCVNGR JOIN <Team Code>:** Get everyone involved! Have all the cell phones sync up together to all be on one clue-solving team, by having everyone send in "SCVNGR JOIN <team code>" to 8398-63 (TextMe) at the start of the game!

Continued

Cell Phone Scaventure Continued

- **HINT:** Stuck on a clue? Text back “HINT” to get some help. But be careful, each hint you use takes away points for your team!
- **SKIP:** Really can't figure it out? Send in “SKIP” to go to the next question
- **SCORE:** Curious as to how you're doing? Text in “SCORE” to get your score and current place in the adventure!
- **PILOT:** Switch leaders during the game by texting in “PILOT” from any phone and now that phone is in command!
- **COPILOT:** Have the clues sent out to more than one phone! Text in COPILOT and let everyone join in the clue solving fun!
- **And much much more!**

Ideal Usage

- New product launches
- User conferences
- Retreats

Group Size

- Best suited to teams of 4 – 6. Can easily accommodate multiple teams.

Time

- 1.5 – 2.5 hours.

Space

- This program can be done outdoors at a resort, in an urban area, at a conference center, a college campus... pretty much anywhere on the planet.
