

## The Charity Bike Build!

“Our group had a great time! It was one of the best team events we have held and certainly the most rewarding. Many of the participants have young children, and it inspired them to do their best, knowing that the bikes they were building were going toward such a worthy cause. The Teambonding team was wonderful to work with and provided a very rewarding and entertaining evening for our group. Thank you for once again for providing a top notch event. We look forward to working with you again next year.”

Mary Ann Rundall – JDSU

### Primary Benefit:

Team Building for a great cause

### Secondary Benefits:

- Tangibly make a difference in the lives of underserved children in your community
- Practice excellent customer service
- Communication
- Problem-solving
- Identify strengths
- Inspire your team
- Time management
- Resource management
- Big-picture thinking
- Seeing how individual efforts contribute to everyone's success

### The Game:

Time is almost up, and your team is working like a well-oiled machine as you build...err, well...well-oiled machines! Armed with wrenches and enthusiasm, you race to construct the ultimate human-powered, no-gasoline-needed rocket – a children's bicycle! Meanwhile, other teammates are navigating fun, innovative puzzles and challenges to earn enough “money” to purchase that last crucial part to make your bike the first off the line.

The final bell rings. You wheel your mechanical marvels to the presentation/start line. Everyone is poised to present their bike and “TV commercial” to their TeamBonding ‘customers’ when a door at the end of the room bursts open. Now, your *real* customers come running out – underserved children from *your* community! Imagine the delighted surprise that fills the room when your group finds out that the children get to take the bicycles you just built home with them.

We all want to make a difference in this world. Here's a rare opportunity to actually do so, with immediate, tangible results built into the process. This is an extraordinary way to infuse a conference with energy, create a feeling of immense good will and a sense of meaning larger than day-to-day work challenges. If you want an event that your people will never forget, this is the one.

For most of the children involved, ages 8-12, this will be their first bicycle! We partner with charities such as Boys and Girls Club and Bikes for Tykes. Or we're happy to partner with a local charity of your choice.

Each child receives:

- A brand new bicycle built by your group
- A brand new bike helmet

Continued

Experience the power of play!

You'll be amazed at how energizing this event will be for everyone involved and what your team can accomplish back at work following an event that pulls everyone together for such a rewarding cause.

In typical TeamBonding style, we take care of all the logistics – making you look good while making the whole event simple and painless. Remember, keep this one a surprise for the participants – don't spill the beans! The surprise value of the big finale cannot be overstated.

### Training Module or De-Brief:

This program can easily include a debrief by one of our acclaimed Facilitators. We'll be happy to customize your debrief to link the whole event (and the spirit behind it) to your organization's values, goals and culture.

### Minimum/Maximum Group Size:

15 to over 1,000 participants, the larger the group, the more bicycles you make, and the more children in your community benefit!

### Program Length:

2 - 4 hours

### Space Requirements:

You'll want a large, open space. This can be indoors or outdoors – your office building, a ballroom or conference room, even a parking lot. Twenty square feet per participant is a good guideline. The Charity Bike Build can be held anywhere in the world. We come to you, complete with everything you'll need to ensure an exhilarating and memorable event.

“The event went very well and Dawn the director was pleased. What a relief! The end result was the smiles on the children's faces.”  
Karen Manley – Johnson & Johnson
