

DAVINCI'S MUSEUM ADVENTURE

EXPERIENCE THE ART OF A TEAM BUILDING ADVENTURE!

BENEFITS & RESULTS

- Celebrates team problem solving
- Promotes creative thinking
- Encourages group interaction
- Boosts morale and camaraderie

DaVinci's Museum Adventure is a great team building exercise that incorporates art appreciation, intrigue and adventure into an unforgettable experience for your group! Teams experience the thrill of searching for the ancient Grail, complete with all the excitement of the best-selling book. *DaVinci's Museum Adventure* is typically staged in an art museum in your city (The Met, Getty, the National Museum of Art, etc.), where teams use detailed maps, interact with the artwork and search for clues that will help them break the mysterious Cryptex Code.

As teams utilize maps of the museum that indicate where clues can be found, they act as sleuths, navigating to the right piece of artwork, examining it and detecting the correct answer within each piece. Once assembled, the full collection of clues helps teams find the key to the treasure chest hidden somewhere in the museum.

DaVinci's Museum Adventure is designed to heighten your group's sense of perception, encourage critical thinking and to engage discussion and group problem solving. Teams work together to solve the mystery and enjoy every minute of the process! The climax occurs when a team finally gets to open the chest itself. This grand opening can take place within the museum, at a nearby restaurant, or at your meeting. You supply the treasure... we'll supply the excitement.

PROGRAM LENGTH:
Approximately 3 hours

GROUP SIZE:
12 - 200

TEAM SIZE:
4 - 6 people per team

SPACE REQUIREMENTS:
An art museum in your area

IDEAL USE:

- New project kick-offs
- Sales meetings
- User conferences

"The event went great. Everyone remarked on how fun and different DaVinci's Adventure was. Your staff did a great job facilitating the event. Now everyone is asking me what we are going to do next!"
