

HABITAT FOR HUMANITY

A TEAM BUILDING EVENT THAT MAKES A REAL DIFFERENCE.

BENEFITS & RESULTS

- Boosts morale and team spirit
- Encourages corporate citizenship
- Strengthens teamwork
- Enhances communication
- Builds cooperation & creative skills
- Fosters productive relationships

Teams work together to construct four items for a specific family. At the start of the activity they'll receive a picture and short bio of a family that will benefit from a Habitat home in the coming year. After an icebreaker activity and a brief awareness builder on *Habitat for Humanity*, the program begins!

Throughout the task-oriented activity, teams use financial management, time management, and skills analysis while designing and constructing four home décor items for new homeowners. Teams must strategize and utilize each member's skills most effectively to complete the tasks on time and most efficiently!

This two-hour TeamBonding activity enables participants to support the work of *Habitat for Humanity*, an organization that helps provide new homes for low-income families across the nation. Teams roll-up-their-sleeves to design and build meaningful gifts for families who will soon have a home to call their own. These gifts will be the first housewarming presents families will receive, and will go a long way toward making a house a home.

You don't have to build a home to support the work of *Habitat for Humanity*. For teams with a limited amount of time, this unforgettable TeamBonding program allows your organization to make a powerful, meaningful impact on families in need.

PROGRAM LENGTH:

Approximately 2 hours

GROUP SIZE:

20 - 300

TEAM SIZE:

8 - 10 people per team

SPACE REQUIREMENTS:

Ballroom, conference room or outdoors (weather permitting). A table and chairs per team, with a material table for our supplies.
