

WORLD RECORD BREAKERS!

HIGH-ENERGY TEAMWORK THAT GOES FOR THE GOLD.

BENEFITS & RESULTS

- Boosts morale and team spirit
- Involves maximum participation
- Promotes camaraderie
- Encourages friendly competition

What is it like to capture the energy, passion and fervor of worldclass competition? *Record Breakers!* can take you there! In this high-energy teambuilding program, teams race through a dozen brazenly hilarious games, to go for the fastest times, furthest distance and the most points. Which team will be the best and break the record? There are no barriers to entry here. This is a sport for the “common man” (and women); you don’t need physical prowess to be a contender.

Groups are divided into teams, and each one is given extensive list of records to set and beat. Teams strategize, plan and choose which records to go for based on their own strengths. The catch is everyone is trying to beat the same records! And no record is safe for long, because the team next to you is working to break the record you just set.

As the game ends, teams gather around the official Record Board to see who really scored the fastest, longest, funniest, and zaniest. As teams check their standings, you see that every team is a winner because they’ve had a great time!

Record Breakers! is an event designed for groups who like measurable results. Teams enjoy camaraderie and the great fun they have strategizing and working toward the Gold.
