

Unifying bridge construction project with limited resources, communication barriers and strict deadlines

### Key Benefits

- Cross Functional Co-operation
- Develop Leadership Skills
- Customer Relationship Management
- Embed Protocol
- Create Shared Moments

**Bridging The Divide**

indoors or outdoors

1 – 2 hours

24 – Unlimited

## Activity Overview

- Bridging the Divide requires teams to employ project management skills in building a bridge to exact customer specifications
- The activity requires teams to overcome limited resources, communication barriers and strict timelines
- Each team plays a dual role as both ‘customers’ who need their bridge section to be built, and as ‘suppliers’ to build another team’s bridge section
- The bridge needs to be strong enough and stable enough to allow a large remote-controlled vehicle to safely cross it

Celebrate Shared Achievement!
