

PHOTO SCAVENGER HUNT

YOUR CITY SCAVENTURE!

BENEFITS & RESULTS

- Energizes teams in a friendly competition
- Fosters cooperation and collaboration
- Builds trust between individuals, departments and external team members
- Stimulates sharing and interactive problem solving
- Develops planning, time-management and leadership skills

TeamBonding's *Photo Scavenger Hunt* is custom-designed to the city location of your choice, and can be done on-foot, or with arranged limo transportation for your teams! The *Photo Scavenger Hunt* is one of TeamBonding's most customizable and adaptable (and popular) programs. We work with you to craft a Scaventure that will meet all of your goals – whether they are educational, or just to blow off some steam.

The TeamBonding event staff meets your group at your desired start location, where we warm up with an introduction and icebreaker activity. Our professional facilitators gather your participants into teams (you can pre-divide them, or we can do it at random), and launch them into the hunt with all of the materials they will need for the activity.

Equipped with digital cameras, a team mascot, and an item collection bag, teams use strategy, creativity and stealth to compile the most points. Teams are given a list of photo opportunities, which are specific to a city or neighborhood, each challenge having a different point value. Participants need to discuss among their groups the best way to conquer the challenges to gather enough points for a win.

TeamBonding *Photo Scavenger Hunt* hunts also include tasks such as gathering free and found items from around town, as well as coming up with a unique poem or team cheer to celebrate their day.

PROGRAM LENGTH:

This is one of our most flexible programs. For most groups, a total of 2 - 3 hours is needed (includes the entire hunt and wrap up), but we can adjust this based on your location and group size.

GROUP SIZE:

12 - 200+

TEAM SIZE:

6 - 10 people per team

SPACE REQUIREMENTS:

A private space large enough for the group to gather for the launch and the wrap up. They can be two different locations if you desire. The wrap up location should have or be capable of having a slide-show presentation to your entire group.

IDEAL USE:

- Training session kickoffs
- Celebrate recent success
- Energize conferences
- Sales conferences

Thanks so much. We had a fantastic time. The Photo Scavenger Hunt event was extremely well-constructed and executed. The department has been raving about it."

PHOTO SCAVENGER HUNT

YOUR CITY SCAVENTURE!

The excitement builds as teams gather at the end of the hunt to tally their points and showcase their adventures. Ideally, the hunt ends at a location that allows the group time to share their experiences, tell stories, showcase team challenges and share their photos. TeamBonding facilitators download each team's digital pictures for projection on a big screen, and lots of laughs. Facilitators work as judges to validate the photos and present a wrap-up highlighting the accomplishments of individual teams and the group as a whole.

This is one of TeamBonding's most flexible programs; we can create company specific challenges that promote your brand or goals, or even integrate famous landmarks throughout the hunt to make sure your group is thoroughly exploring the city. We combine adventure and exploration into a memorable team building event that guarantees your team will have a great time while discovering new things about their surroundings and each other during this unforgettable experience!

WE PROVIDE:

- Scaventure professional facilitators
- Item collection backpacks and team mascots for each team
- Digital cameras for each team
- A customized set of scavenger challenges
- Clipboards, pens and props
- At your request, we can provide Scaventure t-shirts as prizes for the individuals on the winning team.

"It was the best I've ever experienced to promote team spirit...to execute a team plan, elect a team leader, and work with establishments that had no vested interest in our success! Wow, what a great time!"
