

# PLAY TO WIN!

## TOTALLY CUSTOMIZED TEAM BUILDING FUN!

### BENEFITS & RESULTS

- Boosts team spirit & builds camaraderie
- Improves communication skills
- Fosters collaboration and teamwork
- Connects with your team's unique needs

Want a totally customized event created to bring out the best in your team? *Play to Win!* is the answer. TeamBonding creates a fun program featuring a custom-tailored combination of Ice Breakers, Energizers and fun Team Challenges that are hand picked to meet your team's needs. No two events are ever alike! That's because before we select the activities, we speak with you about your objectives and your team's unique characteristics.

Through the planning process with your TeamBonding event manager we will conduct a needs analysis as you discuss the challenges your group is facing, and what your event goals will be. We will craft the best possible program of fun, engaging and interactive events based on your answers about your team. We take care of it all - it's that simple!

Whatever we come up with together, *Play to Win!* will have your team moving around, but none of the activities will require anyone's feet to leave the ground. All of the exercises present difficult mental challenges designed to help you achieve the desired outcome regardless of the participant's physical abilities.

Each person will always have choices about how they want to participate. The Grand Finale is the popular Pipeline game, a teamwork extravaganza that requires cooperation, strategic thinking, and building together!

TeamBonding's facilitator leads a debrief which uncovers group dynamics, team strengths and communication issues. Techniques for progressing as a team and models for more effective problem solving are discussed. The group brainstorms ways to formalize and maximize their communication and total team potential. This increases awareness and develops the skills necessary to be an effective member of a high functioning team.
