

RICKETY RACKETY CAR DERBY

CONCEPT CAR TEAM CHALLENGE

BENEFITS & RESULTS

- Boosts team spirit
- Promotes collaboration and communication
- Enhances creative thinking
- Celebrates healthy competition
- Fosters problem solving

It's wild, wacky TeamBonding fun! Teams come together to design, build and ultimately race their very own "race car" around a track. It's not the Indy 500, but the excitement feels like it!

Proudly, teams construct a car complete with chassis and body, pass a safety inspection and get ready to race against the clock. Everyone participates; from building to designing to decorating the vehicles and even racing suits.

Of course, TeamBonding provides everything that the teams will need to build their cars from scratch: a blank blueprint, tires, axles, lumber, and cardboard, as well as the tools to cut and shape materials. When construction is complete, teams use their human engine to push their cars around the track. The teams are timed, and compete in a bracket system to see which team emerges victorious. TeamBonding handles all music, decorations, and awards for the "Winner's Circle." We provide award medals for 1st and 2nd place for three categories: Best Race Time, Best Pit Crew and Best Overall.

As team members come together in this unique team building event, they are forming new connections with co-workers and enjoying the contagious energy of the creative process. *Rickety Rackety Car Derby* is an unforgettable program that brings together teamwork, collaboration and camaraderie for long-lasting effects! Your team will enjoy every heart-pounding minute of it.

PROGRAM LENGTH:

Approximately 1.5 - 3 hours

GROUP SIZE:

30 - 300+

TEAM SIZE:

8 - 10 people per team

SPACE REQUIREMENTS:

An empty parking lot or large paved area is ideal. We can also stage this event in a large indoor space. We'll be happy to discuss specific details.

IDEAL USE:

- Company picnics/outings
- Retreats/conferences
- Awards trips

"They loved it...Everyone gave the team building activity a great rating and hopes that we do something similar next year. Thanks again!"
