Program Overview

Craft and Enjoy Classic Cocktails at Home

There's never been a better time to learn a new skill and our Virtual Happy Hour & Mixology is the perfect blend of work and pleasure. Using Zoom or the platform of our choice this virtual event will blend in tips, tricks, and trivia from one of the world's leading authorities on bartending (really).

The elements of a well-made cocktail work much like a team. Different spirits, liqueurs, sweeteners, and citrus combine to make one mouthwatering beverage. Understanding this synergy, and how the ingredients in a cocktail work harmoniously together have tremendous parallels when you consider why a cocktail tastes so delicious.

We're making this even easier for you as we will ship each participant cocktail kits that include the premium ingredients you need to craft and enjoy a top-notch cocktail or mocktail or participants can provide the ingredients and the alcohol, themselves.*
