

# DO GOOD BUS

## HOW DO YOU DO GOOD?

The Do Good Bus is a great full or half day activity to include in company retreats, trainings and destination meetings. It's a chance for your team to work together, do GOOD together and learn about the community. We work closely with your team to incorporate your core values and company mission throughout the ride. Our team is committed to helping you create true authentic bonds, improve communication and ensure a collaborative climate – all while giving back.

A little mystery helps. Typically, our destinations are a surprise. Since everyone is starting at square one with limited information, it allows for open communication and even a little space for unlikely leaders to speak up.

Visiting for a convention? Why not make a GOOD impact on the community you visit? Our team has worked with causes all over the US and can help you find a good fit for your team. Not only will your team do GOOD and build team camaraderie, it's a great way to see the city you're visiting. Our team can even incorporate a visit to a tourist destination or local bar.

*All rides include General Liability insurance coverage, a dedicated Do Good coordinator and unlimited high fives*
