

# PAWS FOR A CAUSE

## HELPING HANDS FOR PAWS AND CLAWS

### BENEFITS & RESULTS

- Improved Morale
- Promotes Time Management
- Builds Team Communication Skills
- Inspires Teamwork Towards A Goal

Severe weather trends in recent history have made the need for animal shelters that much greater, as an unprecedented number of animals have been displaced due to hurricanes and tornadoes. However, the need for animal shelters is universal, so this is a program that can be done in the smallest of towns or the largest of cities. While most Corporate Social Responsibility programs focus solely on human-kind, *Paws for a Cause* focuses on humane-kind by providing some creature comforts to those animals awaiting their permanent homes.

*Paws for a Cause* is TeamBonding's innovative new CSR program that combines fun and philanthropy to get your team motivated. Your group is divided into teams to work together to compete in different games and challenges to earn points. Once they've earned enough points, teams can shop at the "Pet Shop" to get the materials needed to craft some much-needed items for local animal shelters and rescue organizations, like dog beds, cat scratching pads, toys for the animals or gift baskets filled with assorted goodies. Do you have a local beneficiary in mind already? TeamBonding works with your preferences to find the right organization to accept your donation, so if one has a special place in your heart, let us know. We'll do our best to get them on site for the event finale.

This program is one for the dogs (and cats!), in the best way possible! With core team building skills like communication, time management and collaboration foremost in mind, we've designed this program to be educational, fun and, above all, a true Team Builder. With a common philanthropic goal, your team will have to focus on the big picture, and work together to achieve it in small ways. This is truly a win-win program; the animals get the support they need, and your team benefits from a fun, collaborative TeamBonding experience.

### PROGRAM LENGTH:

Approximately 2 hours. The program length is adjustable.

### GROUP SIZE:

10 - 100+

### TEAM SIZE:

5 - 8 people per team

### SPACE REQUIREMENTS:

A large enough space for each team to have their own table and chairs, plus enough space for teams to be able to do one or two projects adjacent to their tables. We also need 2 rectangular banquet tables for event supplies.

### IDEAL USE:

- Conference/Meeting Breaks
- Morale Boosters
- Corporate Social Responsibility Initiatives
- Annual Meetings, Retreats and Celebrations

### Did you know?

Homeless animals outnumber homeless people 5 to 1.
