

Players deploy collaborative teamwork to 'round up' virtual wild animals in the urban jungle

Key Benefits

- ✓ Improve communication skills
- ✓ Learn to work in squads
- ✓ Share knowledge
- ✓ Develop velocity
- ✓ Use complementary skills

**Outdoor Cooperative
Augmented Reality Game**

outdoors

8 – unlimited

1.5 – 2 hours

Activity overview

- An emergency is unfolding downtown; players learn that all the animals in the city zoo have escaped! Their mission is to form highly efficient crack squads to track them down
- Armed only with their personal device, players scan a QR code and get ready for action
- Teams navigate a parallel world using augmented reality, find the escapee animals and return them to safety
- Only well-coordinated cross-functional communication will save the day!
- Safari is 'social distance ready' and can be played across any outdoor environment

Players are assigned specialist roles and access to walkie-talkie channels integrated into their app
