

TeamBonding

Better teamwork. Happier teams.™

Charitable Events

Discover the impact you can make as a team! With our Corporate Social Responsibility (CSR) Team Building Programs, your team can make a difference, together.

Wheels Around the World

In this philanthropic event, each team will sponsor a wheelchair, complete a set of activities, decorate and personalize a wheel safety cover, and discover more about their recipients. Participants will make a direct impact on a person's life while at the same time raising awareness of what it is like to live with a disability.

Build-A-Birthday

Bring joy. Make a difference. Your team can do just that by providing homeless children with the gift of a magical birthday party!

The Charity Bike Build

Hundreds of companies have used our Charity Bike Build to donate nearly 20,000 bikes to grateful children around the world. Of all the team building programs we offer, the Charity Bike Build is truly our #1 favorite.

Play it Forward – The Giveback Game Show

Spark your excitement with this event based on the popular pricing game show, but with a charitable twist. In this giveback version, teams compete in pricing challenges and trivia in order to win it all for charity.

Little Team Library

Give the gift of literacy in this hands-on charitable program that combines the building of Little Free Libraries with the creativity of storytelling. Teams will work together to assemble the kits, decorate, and write and illustrate a children's book to go in the finished product. In this unforgettable event, you'll create a permanent neighborhood book exchange in the community while having fun and connecting with your team.

Tools for Schools

This hands-on corporate charity event has your group filling backpacks with notebooks, pencils, erasers and other vital school supplies. But they'll have to earn them in a series of fun mental and physical team challenges.

Do Good Bus

Giving back to your community always feels good. Getting out into that community while you're giving back is even better. And when your team travels together by bus to reach their destination? We call that next-level good.

The Donation Station

Focus on giving back, where your team works together to make a personalized donation to an organization of your choice. This is charitable giving, made easy. You choose what kind of organization you want to support, and we take care of the rest.

Mr. Roboto

In this charity team building event, you'll build actual functioning robots. Each robot is controlled by an easy-to-use iPhone app. You'll end on a memorable high note as teams compete on a hilarious obstacle course.

Healthcare Heroes Scavenger Hunt

Our hi-tech scavenger hunts are always popular choices. This inspiring version offers a unique blend of sightseeing, adventure and team building. It's also a meaningful way of giving back to local heroes in your community.

Operation Cancer Care

This team building event is designed to bring out the fun while making a remarkable contribution to those fighting cancer. Teams compete in a series of zany challenges to produce care packages for delivery to cancer patients.

Everyday Superheroes

Unleash the forces of creativity, excitement and fun in this charitable team building event. Teams get to design their own superhero characters and comics, then assemble Green Machine bikes and teddy bears for deserving kids.

Cooking For A Cause

This fun culinary team building activity is built around preparing and enjoying a meal with the rest of your team. But you also help your community in a meaningful way by creating welcome donations for a local food bank.

Team Ukulele

In this fun event, your group forms bands to create new versions of popular songs. Everyone has a part to play. Some write, some sing, and some work out their team's choreography. Of course, some will even play the ukulele.

Wheelchairs In Motion

This charitable event isn't just about strengthening relationships within your team. You'll be assembling and donating new wheelchairs to disabled U.S. veterans and others who can't afford the mobility assistance they need.

Helping Hands

This philanthropic activity lets your group provide hope, help and a little cheer. Working together, teams assemble personal care kits for community members facing the devastating impact of natural disasters or homelessness.

The Big Give

A combination of several popular charity programs morphed into one mega giving extravaganza, The Big Give is ideal for a company seeking an opportunity to build not only relationships but also boost Corporate Social Responsibility (CSR) as well.

Custom Team Building

Want a fun event inspired by a special conference theme, favorite management book or unique set of learning outcomes? Or maybe there's a specific charity you'd like to support? A fully customized event may be the way to go.

Lead by our professional facilitators, chefs, hosts & MC's, we'll make your team event one to remember.
