Activity Overview

- Teams represent a group of friends going to a summer music festival
- The game app guides teams towards GPS-located 'stages' positioned around the grounds of their meeting venue
- The Global Festival ground has 7 different music stages each themed to a different music genre
- On arrival at each location, the app triggers a variety of challenges; they solve riddles, create photos and videos of 'festival moments' and also research facts on the supporting festival website
- Limited time and resources put team dynamics to the test, challenging them to be creative and look for opportunities
- Each zone allows the allocation of tasks to specific team members, so they can play to their strengths for the overall benefit of the team
