## Activity Overview

- **ibuild Superstars** is a remote teambuilding challenge played through a web-based platform and a conference video call
- The goal is to create a replica of a matchstick model that will be revealed in stages lasting from 6 to 11 minutes
- Each team member will have the option to choose from three roles in each stage
- The key to success lies in clear communication and collaboration between team members and teams
- Participants exchange roles at each step to experience different positions and responsibilities, leading to a unifying experience with strong learning outcomes

*Are you up for a hands-on virtual challenge with a practical edge?*
